## *Memorandum*

TO: BATA Oversight Committee

DATE: July 7, 2010

FR: Executive Director

RE: Contract Amendment – Transit Hub Signage Program: PB Americas (PB)

In January 2007, the BATA Oversight Committee authorized the Executive Director to enter into contracts with a total of seven eligible firms to provide on-call construction management and project design services. One such contractor is PB. To date, under the on-call contract, PB has performed tasks that include:

- Developing renderings and 4D models for the San Francisco-Oakland Bay Bridge East Span Replacement I-880/92 Interchange projects,
- Conducting public information activities for the Yerba Buena Island viaduct replacement,
- Planning and operations analyses related to Express Lanes, and
- Construction management for the SFOBB Open Road Tolling (ORT) project.

Staff is recommending that the contract between BATA and PB be amended to provide additional funds for construction management services for the installation of wayfinding, transit information and other signs at transit hubs in the Bay Area. These signs are the result of the Regional Measure 2 (RM2)-funded Transit Connectivity Plan which sought to reduce congestion in bridge travel corridors by improving connections between transit systems.

## *Recommendation*

Staff recommends that the Committee authorize the Executive Director or his designee to negotiate and enter into a contract amendment with PB in an amount not to exceed \$200,000 to provide construction management services for the installation of signs at transit hubs.
